2

Technological Aspects of Education & Training

Education for Security and Safety

01. Task-Based Approach in 3D Education for Security and Safety 3
Małgorzata Gawlik-Kobylińska (Poland)

Education for Software Engineering

02. An Approach for Automated Software Engineering Competence
Measurement: Model and Tool 13
*José A. Sánchez, José L. Fernández-Alemán, Joaquín Nicolás, Juan M. Carrillo de
Gea¹, Begoña Moros, José A. García-Berná, Ambrosio Toval (Spain)*
03. An E-Competence Evaluation Portal for Software Engineering Master Course 27.
Vasiliki Liagkou, Chrysostomos Stylios (Greece)
04. Rubrics Templates for Personal Competences' Self-Assessment of Master of
Science in Software Engineering Programme Graduates 39
*Juan M. Carrillo De Gea, Begoña Moros, Joaquín Nicolás, José L. Fernández-Alemán,
José Alberto García Berna, José A. Sánchez, Ambrosio Toval (Spain)*

Education & Training in Robotics and Aircraft

05. Program of Specialists' Training in the Field of Robotics 51
Alexander Krainyukov, Aleksander Krivchenkov (Latvia)
06. The Possibility of Distance Learning in Aircraft Specialists Training 59
Alexander Medvedev (Latvia)

Efficient Teaching and Social Aspects

- 07. Computer Role-Playing Games as One of the Most Efficient Methods of Teaching and Learning in Higher Education** 65
Pāvels Podjačevs, Oksana Skorobogatova (Latvia)
- 08. Why Don't Women Choose STEM? Gender Equality in STEM Careers in Latvia** 79
Irina Yatskiv (Latvia)

Information about the Conference & Project

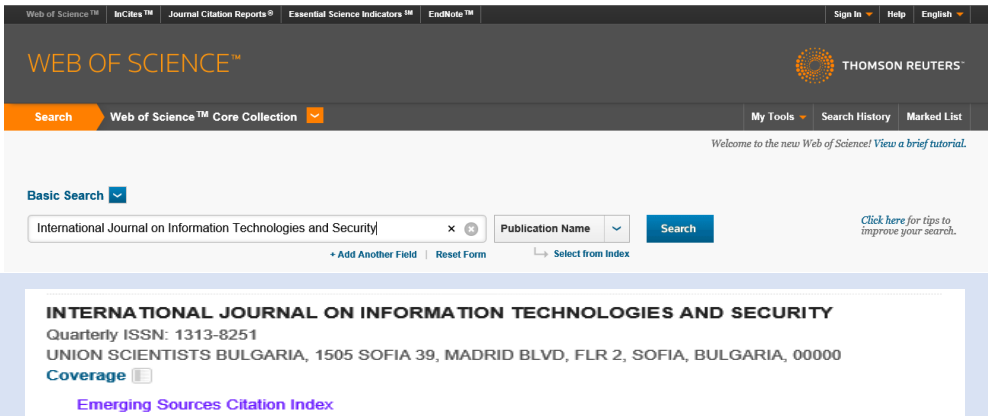

Special Issue № 1/2017 contains selected papers presented during the annual International Scientific and Educational Conference Actual Problems of Education (MIP-2017), 01-02 June 2017, Riga, Latvia, organized in conjunction with and partial financial support of the ERASMUS+ Project iSECRET (ID: 2015-1-LV01-KA203-013439) Dissemination Conference.

Conference organizers: Transport and Telecommunication Institute (TSI), Latvia with the support of the iSECRET partnership: University of Economy in Bydgoszcz (WSG), Poland; Kaunas Technological University (KTU), Lithuania; University of Murcia (UM), Spain; Technological Educational Institute of Epirus (TEIEP), Greece; Plovdiv University (UP), Bulgaria."

Information about the MIP-2017 Conference: http://www.tsi.lv/en/MIP-2017_EN Information about the iSECRET project: <http://moodle.kic.teiep.gr>

IJITS indexing by Web of Science

IJITS is indexed in ***Emerging Sources Citation Index (ESCI)***
of the Web of Science™ Core Collection, starting with the 2016 content

The screenshot shows the Web of Science search page. At the top, it says 'IJITS is indexed in Emerging Sources Citation Index (ESCI) of the Web of Science™ Core Collection, starting with the 2016 content'. Below this, there's a search bar with the text 'International Journal on Information Technologies and Security'. To the right of the search bar, it says 'Publication Name' and 'Search'. Below the search bar, there's a link to 'Add Another Field' and a 'Reset Form' button. To the right of the search bar, there's a link to 'Select from Index'. Below the search bar, there's a section titled 'INTERNATIONAL JOURNAL ON INFORMATION TECHNOLOGIES AND SECURITY' with the ISSN 1313-8251 and the address 'UNION SCIENTISTS BULGARIA, 1505 SOFIA 39, MADRID BLVD, FLR 2, SOFIA, BULGARIA, 00000'. Below this, there's a 'Coverage' section with a link to 'Emerging Sources Citation Index'.
